

If We Can

Not get our prices
we'll take yours,
for they must go.

We mean the remainder of
our Summer stock. Please
note below the merely nomi-
nal prices on a few things
to give an idea of those in
other lines:

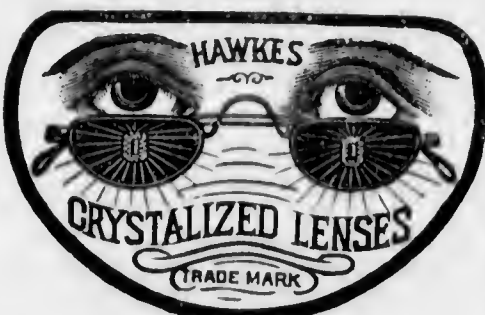

DRESS: GOODS!

Satteens at 5c., reduced from
10c.; Dress Gingham at 7 1-2c.,
reduced from 10 and 12 1-2c.
Half Wool Challis at 15c., re-
duced from 20 and 25c.; Full
Standard Prints only 5c. per
yard.

REMNANTS

OF SATTEENS,
GINGHAMS,
and CHALLIS

At half price. Special prices
on Domestic During August.
Good, yard-wide Brown Mus-
lin at 5c., fully worth 6 1-2c.;
Bleached Muslin, yard-wide,
at 5c. a yard. Plaid and Strip-
ed Shirting at 5c. per yard.
Big jobs in Towels at 5, 7 1-2,
10 and 25c. Come at once and
see our season bargains.

BROWNING
& CO.

A VOICE

From the Executive Mansion.

MR. A. K. HAWKES—Dear Sir: The pan-
toscopic glasses you furnished me some time
since give excellent satisfaction. I have test-
ed them by use, and must say they are un-
equalled in clearness and brilliancy by any
that I have ever worn. Respectfully,
JOHN B. GORDON,
Governor of Georgia.

Program of Congress.

A Forecast of the Proceedings
of the Week.

IN BOTH SENATE AND HOUSE.

The Debate on the Tariff Bill Will Be
the One Main Feature in the Senate,
and the River and Harbor Bill May
Be Taken Up—The House Likely to Be
Without a Quorum a Greater Part of the
Time—Other Washington News.

WASHINGTON, Aug. 4.—The senate
will continue the consideration of the
tariff bill until Friday of this week,
when Mr. Frye, the chairman of the
committee, has given notice that the
river and harbor bill be taken up
and disposed of.

The river and harbor bill will not take
less than two days' debate and the
debate may extend even a week, particu-
larly if the Democratic policy of ob-
struction is carried out. The considera-
tion of the tariff bill may be interrupted
early in the week by the presentation
of the conference report on the land grant
forfeiture, or the conference report on
the original package bill. Either of
these may lead to an extended debate,
and so the prospects of making much
progress with the tariff bill this week
are not very good.

It may be that the Republican caucus
will get together during the week in
view of the slowness of the debate on
the bill thus far and agree to put before
the senate the proposition for adopting
a rule under which the previous ques-
tion can be called. This is not regarded
as probable by those and they are in the
majority who think the Federal election
bill is shelved by agreement until the
next session of congress.

The business that may be transacted
in the house this week will depend en-
tirely or largely upon the presence and
maintenance of a quorum during the
week. There are a number of matters
waiting and claiming attention of the
house, but just which particular matter
will receive attention first it is difficult
to state, but there is a disposition on
the part of a majority to dispose of the
conference report on the original package
bill, the compound tax bill and several
contested election cases.

The general deficiency bill and the In-
dian appropriation bill, with senate
amendments, are awaiting the action of
the house, and either of these, some
other matters not likely to arouse party
feeling, are likely to be considered dur-
ing the week even in the absence of a
quorum. The probability is that the
original package bill will be acted upon
early in the week and that the general
deficiency bill, which, when brought be-
fore the house, will occupy its time for
several days, will be disposed of during
the week.

WASHINGTON, Aug. 4.—In the senate
Saturday a petition from Ohio was pre-
sented favoring an increase in the duty
on barley. The credentials of E. D.
White as successor to Mr. Eastis, of
Louisiana, were presented. A joint
resolution was passed to permit Lieut.
Col. H. C. Corbin to accept a civil po-
sition on the world's fair commission.
Mr. Blair's previous question resolution
was referred. The tariff debate was re-
sumed and continued until adjournment.

In the house the senate amendments
to the sundry civil appropriation bill
were non-concurred in, and the bill
sent to conference. At 2 p. m. the
house adjourned.

WASHINGTON, Aug. 4.—The house
bill providing 528 additional clerks to
be employed in the work of preparing
for the payment of pensions under the
dependent pension act is still hung up in
the senate committee on appropriations
because that committee has been very
closely engaged on other measures
which also require immediate attention.
Members of the committee say, how-
ever, that there is no doubt that they
will be able this week to bring this bill
into the senate with a view of putting
it on its immediate passage.

WORLD'S FAIR NEWS.

The Bill Passes the Illinois Legislature
Which Adjourns She Dies.

SPRINGFIELD, Ill., Aug. 4.—In the
house Friday morning the world's fair
bill was read a third time and passed by
a vote of 132 yeas to 16 nays.

The bill came back from the senate
with notice that the eight-hour and sub-
merged lands amendments were non-
concurrent in. The house refused to re-
cede from these amendments, and a
joint conference committee was ap-
pointed, to which the matter was re-
ferred.

In the afternoon a report from the
senate and house joint conference com-
mittee was received stating that an
agreement had been arranged by which
the eight-hour section was stricken
from the bill, and an amendment made
to the submerged land clause providing
that the made land, after the fair,
whenever diverted to any other use than
that of a public park, shall revert to the
state of Illinois.

The conference also agreed to present
a joint resolution recommending to the
world's fair directory the enforcement
of the eight-hour principle, and that no
aliens be employed. This resolution was
adopted by acclamation. The report of
the conference committee was then
adopted—134 to 7.

A message from the senate was re-
ceived, stating that that body had con-
curred in the report of the conference
committee and adopted the joint resolu-
tion on the eight-hour and alien labor
principle. This concluded the business
of the special session of the legislature,
and adjournment followed sine die.

HEAVY HAIL STORM.

Great Destruction Done to Property in
Minnesota and Elsewhere.

MINNEAPOLIS, Aug. 4.—A New Rich-
land, Minn., special to The Tribune says:
The most terrific wind and hail storm
ever experienced here visited this city at
11:30 Sunday forenoon. The windows
on the west and north side of every
building in the village and for miles on
either side in the country are broken.
The storm was about four miles wide
and about ten miles long. All uncut
grain in its path is a total loss. The
hail in some instances, as large as hen's
eggs, covered the ground for several
inches. The loss is estimated at \$75,000
to \$150,000. Hogs were killed and
hundreds of chickens perished. The
pieces of ice were driven with such
force as to pierce through the roofs of
buildings.

A special to The Tribune from Sioux
Falls, S. Dak., says: A violent storm
took place here Sunday morning and
while lasting only seven minutes,
caused \$30,000 damages. Hail stones
measured eight inches in circumference
and weighed a ten pounds. Just prior to
the storm, the wind blew sixty-five
miles an hour.

Disasters from Siden report hail,
but no damages.

Dell Rapids, on the north, reports no
hail. On the south the storm did
not extend a mile. On the east the
storm was more severe. Laverne,
Beaver Creek, Valley Springs, Ells-
worth, and Deuce all report hail with
slight damage to crops.

SEVERE STORM IN NEW YORK.

BINGHAMTON, N. Y., Aug. 4.—The vil-
lage of Cortland, in Cortland county,
was visited by a heavy thunder storm
yesterday evening. Streets and cellars
were flooded and one barn was de-
stroyed. Lightning damaged several
business blocks and private residences.
A number of persons are suffering from
nervous prostration, the effects of the
storm.

THREE HOUSES STRUCK BY LIGHTNING.

OLEAN, N. Y., Aug. 4.—The most
violent electric storm of the season pre-
vailed here last night. Three dwelling
houses in different parts of the town
were struck by lightning and totally de-
stroyed. The storm raged for nearly
two hours.

QUADRUPLE DROWNING.

Four Rhode Island People Lose Their
Lives While Bathing.

PROVIDENCE, R. I., Aug. 4.—Thomas
Galvin, a lad residing on Blackstone
street, Worcester, got beyond his depth
while bathing at Bullock's Point, yester-
day and was drowned. Two sisters
await the recovery of the body.

Michael Clossy, of this city, 18 years
old, was drowned while bathing at
Mark Rock.

Robert DeGhan was drowned in
Scott's pond, Central falls, and Thomas
Kelly was drowned in Mashaping pond,
this city, yesterday.

TWO FIRES AT ONE TIME.

DANVILLE, N. Y., Aug. 4.—At about
2 o'clock Sunday morning an alarm of
fire was sounded, and the whole of the
Danville department turned out. The
fire was in an occupied building on
State street, which was consumed.
While there the department received
word that the Whiteman paper mills
were on fire. The large two-story build-
ing belonging to the company was
burned to the ground. Loss, \$150,000;
insurance \$113,000. It is believed both
fires were of incendiary origin.

DR. CURTIS'S SUCCESS.

NEW YORK, Aug. 4.—Father Peter J.
Prendergast virtually assumed the pas-
torship of the Church of the Epiphany
Sunday morning over which Dr. Burt-
sell has been pastor many years.
Father Prendergast was in attendance
at all the masses but only celebrated
high mass at 10:30. He did not preach
any sermon but simply spoke a few
words to the congregation. The pa-
risonists are raising a \$5,000 fund
which will be presented to him on the
10th inst.

TOOK HIS LAST JUMP.

BOSTON, Aug. 4.—Yesterday after-
noon Charles McCaffrey, the Canadian
bridge jumper, jumped from the shores
at the Atlantic works at East Boston
into the water, a distance of 150 feet. He
had been giving exhibitions in this city,
and said that this was his last jump be-
fore going to New York to jump from
the Brooklyn bridge.

SUSPICION OF MURDER.

BIDDEFORD, Me., Aug. 4.—Mary, the
7-year-old daughter of William Man-
nahan, was drowned in the river yesterday
afternoon. Suspicion of murder is en-
tertained by City Marshal Tarbox, who
caused Mannahan's arrest last night to
await the coroner's inquest. Witnesses
testify that Mannahan threw the child
into the river.

A NEWSPAPER THEFT SHOT.

PHILADELPHIA, Aug. 4.—J. L. Merry-
leese yesterday morning shot Henry Al-
mond, aged 20, colored, whom he had
detected stealing newspapers from door-
steps. He called upon Almond to sur-
render, but the youth took to his heels
and the watchman shot him in the back.
Almond died last night. Merryleese is
under arrest.

JEWELRY THEFT ARRESTED.

NEW YORK, Aug. 4.—Thomas Mc-
Aviry was arrested here Saturday night
for robbing the jewelry store of A. D.
Norton, at Gloversville, N. Y., on the
night of April 11. He and his pals, who
have not yet been captured, secured
about \$20,000 worth of jewelry.

TOLD A LAMM SLIDE.

OAKDALE, Ky., Aug. 4.—A Cincinnati
Southern train ran into a landslide near
this place Sunday, and the engine and
three cars were thrown down an em-
bankment into Emory river. Engineer
Sam Moore and Fireman Charles Luna
han were killed.

Railroad Collision.

Three Men Killed Near Bed-
ford, Indiana.

A NUMBER OF OTHERS INJURED.

Two Passenger Trains Going at Full
Speed Around a Curve Came Together.
The Train Men Nearly All Killed or
Injured, While the Passengers All Es-
caped.

BEDFORD, Ind., Aug. 4.—There was
another wreck on the Louisville, New
Albany and Chicago railroad yesterday.
Three men were killed and several in-
jured. About seven miles north of this
place the outbound passenger train
from Chicago came in collision with the
northbound passenger train from
Louisville on a sharp curve killing the
engineer and fireman of the outbound
train, fatally injuring the engineer and
fireman of the other train, and James
Tilford, postal clerk, and Frank Black-
well, express messenger.

Not a single passenger was injured.
The two engines are totally destroyed.
Two mail cars, the express cars and two
parlor cars were telescoped.

The killed are:
Arthur Burns, engineer, of New Al-
bany.

George Cole, fireman, of New Al-
bany.

An unknown man, who was riding on
the engine.

The fatally injured are:
Bob Muir, engineer of the northbound
train.

Dave Smith, his fireman, of Lafay-
ette.

James Tilford, postal clerk of the
southbound train, head cut and inter-
nally injured.

Frank Blackwell, express messenger,
head crushed.

J. W. Jenkins, of Chicago, colored
porter, leg and head crushed.

The seriously injured are:
S. F. Bent, engineer of the main-
tenance or way of the Monon, badly cut
about the body.

Frank Shanks, freight conductor, back
injured.

Ed. Muir, son of the engineer, head
and face cut.

J. R. Ludie, postal clerk northbound
train, bruised.

Conductor John Burns was in charge
of the train going north, and was on
time leaving here, but when the trains
struck he was two minutes late, while
the south bound train was six hours
late.

Conductor McDonald says that he and
his engineer agreed to run on to the side
track at Guthrie, three miles north of
the wreck and wait for the north bound
train. He went to sleep and did not
wake up until they struck. All the in-
jured were brought here, and all that
were able to stand travel were taken on
to New Albany on a special train.

A SALOON ON A SCOW.

The Proprietor Need Not Pay the State
Tax, Says the High Court.

LANSING, Mich., Aug. 4.—The su-
preme court here has filed an opinion in
the case of the people vs. Bonchard,
which, so far as this state is concerned,
is quite far reaching. The respondent
was convicted in the Bay county circuit
court for selling liquors without paying
the state tax under the law of 1887.

He owned a scow which he fitted up
for a saloon and anchored opposite the
town of Bangor and made sales. This
was not denied, but the defense was set
up that not being engaged in the busi-
ness in any city, village or township in
the state, he was not subject to the tax,
and upon this it came to the supreme
court, where the judgment of the lower
court is reversed and the respondent dis-
charged.

The court held that the township
boundary extended to the shore line only
and not being within the limits of that
township of course was not in any other.
The court calls the attention of the legis-
lature to the necessity of a remedy for
the defect.

SUFFERING WITH HYDROPHOBIA.

WARSAW, Ind., Aug. 4.—A case of
hydrophobia has developed in this city,
and the mad dog panic has reached its
height. Miss Cora Kinsey, 19 years of
age, is the victim of the disease. She is
so violent at times that it is necessary to
strap her to the bed on which she lies.
Her parents say that she was bitten
three years ago by a vicious dog, but
that to their knowledge she had never
been bitten since. She growls, snaps,
barks and makes other noises peculiar
to dogs. A large dog, supposed to be
mad, was seen on Indiana street, the
principal residence street in the city,
the other evening, and after frightening
women and children was killed by an
officer.

BLOODSHED OVER DISEASED CATTLE.

WICHITA, Kan., Aug. 4.—Texas fever
is spreading with alarming rapidity
among the cattle in Butler and Elk
counties. Some weeks ago about 50,000
cattle were taken to those two counties
and represented to be from Arizona.
An investigation has shown that they
were brought from the Pan-Handle and
Green county, Texas, and this fact has
greatly enraged the owners of native
cattle. Two men were killed two days
ago in a dispute over the matter, and
more bloodshed is almost certain. So
far about 1,000 head of cattle have died.

A TROOP RUZZARD.

ABERDEEN, S. D., Aug. 4.—A dust
blizzard struck here at 8 o'clock Sat-
urday night and lasted five or ten minutes.
When the wind subsided the mercury
stood at 105 degrees. All crops are seri-
ously damaged by heat and drouth.

NEW MEXICAN WHITE CAPS.

After Many Outrages the Governor Threat-
ens to Use Troops Against Them.

SANTA FE, N. M., Aug. 4.—The
White Cap organization near Las
Vegas, N. M., whose outrages recently
were called to the attention of the se-
cretary of the interior, have become so
bold in their depredations that Gov-
ernor Prince has been compelled to
issue a proclamation calling upon them
to disband, and declaring that if they
do not do so he will order out the ter-
ritorial militia, and, if necessary, call
upon the United States troops.

This band of regulators style them-
selves Knights of Labor and have orga-
nized lodges throughout San Miguel
county until they now have a member-
ship of 1,500. They have without any
legal cause destroyed hundreds of miles
of fences, turned herds of cattle loose,
burned thousands of tons of hay and de-
stroyed other property, while several
men, who have opposed them have been
seriously wounded by some unseen as-
sassin, or mysteriously disappeared.

Another unfortunate discovery for the
county is that for years there have been
factional fights in the Republican party,
and it is now alleged that the leader of
one faction is in sympathy with these
outlaws, and the organization, unless
soon broken up, will be used as a politi-
cal machine.

SAMOA HEARD FROM.

Samoa Very Much Dissatisfied With
England and Germany.

SAN FRANCISCO, Aug. 4.—Advises
from the Samoa Islands, per steamer
Zealandia, are up to date of July 15.
Great dissatisfaction had been expressed
both by the foreign residents and the
loyal natives on receipt of the news that
England and Germany had further de-
layed the appointment of a chief justice
and president of the municipal board,
and that the matter had been referred
to the King of Sweden.

The new government of Samoa is but
little further advanced than it was a
year ago. The only step which has been
taken under the order of affairs created
by the Berlin conference is the recent
appointment of a collector of customs
by the three consuls sitting as a consular
board. Even this action is variously
viewed. Some contending, while the
consuls may make such an appointment,
they have no power to enforce the pay-
ment of duties. The German trading
firm, the largest commercial concern on
the islands, already pays its duties un-
der protest.

The native chiefs assert that indefer-
ence to a request of the consuls they as-
ented to the treaty after a considera-
tion of only twenty-four hours and they
complain bitterly that since then no ap-
pointment has been made.

SOLDIERS FINED.

A Whole Company Placed Under Ar-
rest on a Peace Warrant.

MASSILLON, O., Aug. 4.—Intense ex-
citement prevailed here Saturday night
over the arrest of twenty-seven members
of Company D, of Wooster, in camp
with the Eighth regiment, on a peace
proceedings warrant, sworn out by
Robert P. Skinner, editor of The Inde-
pendent, and it was feared that a con-
flict would be precipitated between the
civil and military authorities.

The Wooster boys took offense at
something in The Independent, and
failed in three attempts to humiliate the
editor by trying to toss him in a canvas
fly. The Massillon company rescued
Skinner during the third assault Sat-
urday evening, but he was wounded over
the eye by a bayonet in the melee, hence
the warrant.

The Wooster boys were taken by the
police force to the mayor's office, at 1:30
yesterday morning, two other companies
with guns accompanying them, from
fear of an attack by citizens. A settle-
ment was effected at 4 o'clock in the
morning by three of the Wooster com-
pany pleading guilty, paying \$20 costs
and giving \$300 bonds each to keep the
peace toward Mr. Skinner forever.

BUTCHERED WITH A BOTTLE.

MARION, Ind., Aug. 4.—A wanton and
brutal murder was perpetrated at noon
Saturday at Van Buren, ten miles north
east of here. Louis Young, who was
sitting outside of Mat. Doyle's saloon,
made some remark to Ed. Robeson, who
came out with a beer bottle. For reply
Robeson brought the bottle down on top
of his skull with all his force. Young
is in a dying condition. Robeson armed
himself and took to the woods, declaring
he would not be taken alive. A posse of
citizens started in pursuit, and captured
the fugitive at 5 o'clock in the evening.
Robeson is a butcher and is built like a
giant. His victim has a wife and seven
children.

LATEST BASE BALL RUMOR.

PITTSBURGH, Aug. 4.—Said a base ball
authority to a Times reporter yesterday:
"The Players' League are enrolling all
the members of the American Associa-
tion under their banner, and it is no
secret that all the players of the Cincin-
nati National League club, except Fore-
man and Duryen, are all in hearty sym-
pathy with the Players' League cause.
Agents have been at work on Byrnes'
Brooklyn National League club, too,
and a stampede from that quarter has
been suggested."

SUNDAY BALL PLAYING STOPPED.

BUFFALO, Aug. 4.—Between 3,000 and
4,000 people assembled at the Champion
League grounds yesterday to witness
the ball game to be played between the
St. Louis and Rochester teams. The
game had not begun, when the police
arrived and told the managers that the
game must not be played. The crowd
became noisy and boisterous, and sev-
eral arrests were made.

ACCIDENTALLY SHOT HIS SISTER.

LANCASTER, Pa., Aug. 4.—Henry Fry-
berger, a young man of Salisbury town-
ship, while shooting snakes Friday ac-
cidentally shot and killed his little sister,
aged 8 years.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

MONDAY, AUGUST 4, 1890.

The fight for honest government in Pennsylvania progresses well. The people are rallying to the support of Pattison and Black, the Democratic nominees.

SENATOR BLAIR'S speech on his Educational bill covers over two hundred pages of the Congressional Record. And yet this man had the cheek to want the Senate to adopt rules limiting debate on future measures. In other words he wants the Senate to adopt Reed's "gag" rules.

The Jessamine Journal notes great improvements in that county. The big farms are being cut up, new dwellings are going up and the country is getting thickly settled, enough for the people to be sociable. It is bad policy for any farmer to own more land than he can cultivate and care for. Farming is a losing business in nine cases out of ten with such men.

JOHN W. LANGLEY stands before the people of this State as a man who is charged with accepting a one undivided twenty-eighth interest in the Garfield Land and Improvement Company to favor some bill the company wanted put through the Legislature. With such a charge as this resting against him, he is picked up by Harrison and placed on the Board of Pension Appeals at a salary of \$2,000 a year.

Such a distinguished Republican as James G. Blaine, President Harrison's Secretary of State, says the passage of the McKinley Tariff bill would destroy the possibility of increasing trade with the countries South of the United States and would bankrupt Uncle Sam's treasury in eighteen months. That's the way the Democrats have talked all along. And the Maysville Republican says Blaine hasn't changed.

The wires bring word from Washington City that John W. Langley, of Kentucky, has been appointed a member of the Board of Pension Appeals at a salary of \$2,000 a year. This, we presume, is the same John W. Langley who figured in such a disgraceful attitude during the closing days of the last Legislature. The appointment of such a man does not reflect any honor upon President Harrison's administration.

Another Convert.

The cause of tariff reform goes marching steadily onward. There has been another notable conversion in the ranks of the Republicans, and Mr. Blaine is not the only distinguished member of the g. o. p. who is now raising his voice in favor of the people's cause.

The new convert is none other than Senator Plumb, who represents Kansas, that stronghold of Republicanism, in the halls of Congress.

Senator Plumb talked on the McKinley Tariff bill last Friday, and his speech is a strong plea for the position the Democrats have held for years on this great question. Hear him:

"The American people are entitled to have cheap goods, if competition can bring that about. When is the time coming when the people of the United States can get some benefits from the establishment of home industries? But just as last as the point is arrived at when lower prices might be expected the manufacturers come to Congress and say that they want more duties, whereby the downward progress of prices may be arrested. The people of the United States ought to have their 'living' now time, and I think that that time has come."

"I have no idea that what I might say is going to affect the vote of the Senate. I can conceive and can see that the cohorts of protection are so organized that the bill is to go through, substantially as it came from the Finance Committee. The manufacturers have had from Congress precisely what they asked, and yet, so far from their being satisfied, a bill for their benefit is to be put through without debate (if that could be brought about) on the theory that the country is hungering and thirsting for more tariff legislation. I believe in distributing the duties that are necessary for the purpose of raising revenue for the support of the Government in such a way as to equalize the conditions existing between the manufacturers of this country and those abroad. If I was in doubt I would resolve that doubt in favor of the American manufacturers. But, if I knew what the exact conditions are, I would put the home and foreign manufacturers on the same footing precisely. I should be recreant to my duty if I gave my support to such a proposition as the China ware schedule."

Wonder if the Maysville Republican will rise up next Saturday and say Mr. Plumb hasn't changed?

During our epidemic of dysentery in the summer of 1879, I sold 103 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and it proved satisfactory in every instance. The remedy is standard in this community.—Geo. B. Dunbar, druggist, Center Point, Iowa. The epidemic referred to was by far the worst that has ever occurred in Iowa. Over 400 persons died from it in a town of only 500 inhabitants; but every case in which this remedy was used recovered. It was equally successful during the epidemic of bloody flux in Virginia in 1887, and in Michigan and Southern Illinois in 1888. It has been in constant use for over eighteen years, and has proved itself to be the most successful medicine yet discovered for bowel complaints. For sale by Power & Reynolds.

POOR PROSPECTS.

What the State Commissioner of Agriculture Says of the Crop Outlook.

Monthly Report Giving the Condition of Corn, Tobacco and Wheat. Other Information.

State Commissioner of Agriculture Wilson, in his report Aug. 1st, says:

"Nearly all spring crops have failed to grow as rapidly as usual. The excessive rains in the winter and spring, with the absence of frosts, baked the ground, and made it clammy and cloddy after being broken. In this condition of the soil, the young and tender roots have not assimilated the plant food. Much of the land was broken up too wet, and has not been cultivated as well as usual. Nearly all crops have grown poorly, and are very uneven."

"Wheat—The acreage of wheat was about equal to last year, and would no doubt have been a splendid success but for the freeze in March. The late sowing has done better than the early sowing, was better advanced, and much of it had jointed when the freeze came, being very sappy, was more seriously affected. The crop has all been saved in splendid condition and threshing is now in full blast and the yield, as far as determined, is not exceeding 55 per cent. of last year, some crops more and some less. There is a good deal of complaint of rust and cockle. The berry is not up to the standard of a good flour yield. The best lands in the best wheat sections have produced some fine crops, but they are the exceptions. I will be able to give about the exact average per acre when the threshers' books are returned."

"Corn—The area of this crop was a full average, or 95 per cent. of last year, which was 105. It was planted two or three weeks later than usual. The stand was generally fairly good, but it has grown uneven, and was controlled by the same conditions governing other spring crops. The drought which prevailed all over the State until the 23d of July seriously stunted the growth, and the early corn has generally tasseled low, with a small stalk, and in the more thoroughly sections the tassel has dried up, and many farmers will not make more than one-third to one-half crop. The more favored sections in rainfall will make a better yield, but few crops coming up to the ordinary capacity of the soil. Taking it all together, the outlook for this important product is very unsatisfactory. The general condition covering the State is 65 per cent. of last year, which was one of the best corn years known to the State."

"Tobacco—A great many correspondents have not replied to the questions of comparative acreage, and I am unable to give it with accuracy, but will do so as soon as obtained. The rainfall during the setting season seemed sufficient for an average acreage, but from various causes the acreage is not as much as anticipated. All old land, especially old land, seemed to be in a condition not to promote the growth, and even at this date there is a very large amount of the old land crop yet in the clods. It is very uneven, and fully 15 per cent. as an average is missing in the hill. Much of it is buttoning very low, and the stalk hardening with a cabbage formation of the leaves. It has been poorly cultivated, and getting a bad start in life, has not recovered. New land tobacco is doing much better, and some promising crops are reported. It is less missing in the hill, and a good deal of it is now being topped."

The rainfall about the 23d of July was very general east of the railroad from Louisville to Nashville and was in sufficient quantity to thoroughly wet the thirsty soil. A few counties east of that road, however, did not get the rain, and a very severe drought is now pending, and every farm of crops and vegetation is being seriously damaged, much of the corn being past redemption. Western Kentucky is suffering most from the drought, except a few Ohio river counties, including Davies and Henderson, but the rain was not sufficient to restore the desired vigor. Occasional showers here and there have fallen, but the tobacco is very seriously damaged in all drought sections, and many report 25 to 40 per cent. as comparative condition. Worms are said to be appearing in large numbers. The amount of tobacco raised and the quality will depend on the season from now on, but it will require a good season and a very late open fall to insure 75 per cent. of the '89 crop. With unfavorable conditions, our correspondents all indicate a much less yield than 75 per cent. The present average condition in the State is 60 per cent. of last year."

"Apples—Apples are shedding badly; are generally small. Condition 40. Peaches are almost a failure. The condition is reported this month at 25."

"Irish potatoes—This crop is not exceeding 20 per cent. of the crop of '89, which is a serious loss to our table comforts. The sweet potatoes are looking generally fairly well, and with sufficient rain would make an average yield."

"Gardens have generally dried up, and vegetables are very scarce. Good rains would give a fall crop of such as mature from now on. With a short vegetable crop, a large percentage of the joints of the hog product spoiled by the warm winter, a short corn and wheat crop, it forebodes a hard year for persons with small means, and it behooves every one to save up and take care of everything that is suitable for the table."

Notice to Water Consumers.

The break-down to the pumps is more serious than anticipated. It will take several weeks to make repairs. This company therefore notifies water consumers to have leaks stopped, waste no water and stop sprinkling until further notice. A reduction in next water bill will be made for whatever time this company does not furnish water for sprinkling purposes.

addit MAYSVILLE WATER COMPANY.

Ho! For Esculapia and Glen Springs. Mr. Samuel Pollitt, of the Burtonville 'bus, is now carrying passengers direct from this city to Esculapia Springs, daily. The 'bus leaves Maysville at 2 p. m., and the conveyance arrives at the Springs at 7 p. m. Leaves Esculapia for Maysville at 5 a. m. Fare only \$1.50 each way. 2w

BLAINE AND FREE TRADE.

Comments of the Press on the Plumed Knight's Tariff Somersault.

Philadelphia Record: Blaine tried in February last to impress his reciprocity policy on McKinley's hide-bound committee, but they shut him out. It is now Blaine's turn to give McKinley a dose of reciprocity.

Springfield Republican: Secretary Blaine follows up his attack on the reactionary tariff policy of the Congressional majority with another ringing blow, which leaves nothing more to be inferred, either as to the position of the Reed-McKinley faction or the earnest intent of the Secretary to "put a head on" its monstrous bill.

Boston Post: Mr. Blaine's second letter to Senator Frye is calculated to increase the consternation with which his earlier declarations in favor of reciprocal free trade have been received. In this one, he disposes, in a single sentence, of the claim of the subsidy seekers that "trade follows the flag," and that commerce can be established by hiring steamers to ply between our ports and those of nations with whom we have only one-sided trade relations.

Pittsburg Dispatch: Mr. Blaine's second brief letter to Senator Frye is a bombshell in the camp of the McKinleyites, and it will probably have a more momentous effect than anything he ever before wrote or said. With so popular a leader flashing such a brilliant light upon the darkness of the McKinley tariff policy, that policy's fate is sealed. It is now only a question whether the party can, at this late day, avoid fatal dissension and save itself from a disastrous defeat by heaving the ill-omened thing and its sponsors overboard.

River News.

A White Collar line packet will pass up for Pomeroy late to-night, and the Sherry will pass down.

The Madison packet, City of Vevay, and the Pomeroy packet, Telegraph, have swapped places during the low water. The Vevay passed up yesterday.

The towboat John R. was sunk at Brush Creek Saturday. She is owned by the Big Sandy Lumber Company, of Catlettsburg, and is insured for \$4,000.

To Dispel Colds,

Headaches and fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

Fruit in Tin Cans.

The fruit put up in tin cans should be taken out when the can is opened for use. If allowed to remain after the can is opened, the action of acid juices upon the tin when exposed to the air may form acetate of tin, which is poisonous. Pour the fruit out into glass or earthenware dishes, and the danger of poison is avoided. This acetate will not form while the air is excluded.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. James Wood.

DIED.

At the residence of his parents, Wednesday, July 30, HATTERTON WELLS, son of J. W. and Elizabeth Wells, aged three months and ten days.

And thus another little bud of hope has been plucked from the garden of life and transplanted in a brighter clime. May this sad affliction to those to whom he was so dear be the means of bringing them nearer to God. He can never come to us, but we may go to him. Sleep, sweet babe, in thy narrow home, sweetly sleep till Jesus comes. B.

FOR SALE—Hall safe, a cannon stove and an office desk. Apply at this office or to GEORGE ORT, JR. 1847

"A Ground-Hog Case."

A boy was digging with an old hoe, as if for dear life, in an embankment at the roadside. A passing traveler, seeing the energy and earnestness of the boy, called to him, "What are you doing there, my lad?" Without losing a lick or looking up, "Diggin' fur a groun' hog" was answered. "Well, you will never get him at that rate," said the man. The boy, working on, replied, "The preacher's a comin' to our house to dinner, an' we've got to hev meat, an' I must git that 'ar groun'-hog." This is the origin of "it's a ground-hog case."

Now it is a "ground-hog case" with us in the matter of getting rid of our SUMMER FOOTWEAR, without regard to prices, that we may re-invest our means in the largest variety of Fall and Winter goods ever seen in Maysville. In view of our small margins, our success depends upon the frequency with which we are enabled to turn over capital. This stock must go. Come and see it and you will be astonished at our prices. Orders by mail solicited. Goods sent on approval.

NEW honey at Callahan's.

SMOKE the "Mountain Boy"

FIRST-CLASS indemnity at reasonable rates.
DULKY & BALDWIN.

THERE were two additions to the Christian Church at the close of the morning sermon yesterday.

THE recent census gives Millersburg a population of 829. Ten years ago the population was 840.

IT is claimed the month just ended was the driest July that has been known in this locality for twenty years.

THE apple crop is pronounced a failure in Bourbon County. It is pretty much of a failure in this section also.

MICHAEL's noted orchestra, of Newport, has been secured by the Maysville Assembly to furnish music for the annual hops during fair week.

DURING the month of July the sum of \$341,140.12 was paid to pensioners through the Louisville office. This money was distributed among 1,886 persons.

AS about one hundred indictments were reported the past week against a man who opened an "original package" liquor establishment at Russellville, this State.

THE foot-bridge over Limestone Creek is in an unsafe condition. Many plank in the floor have become loosened and the proper authorities ought to have it repaired at once.

THE Frank Owens Hardware Company wish the people to know they can get wire screen doors and spring hinges, wire cloth (all widths), fly traps and rat traps at their hardware house.

FRANK OWENS Hardware Company can furnish to threshers of grain, gum belts, (the best made), leather belts, rabbit metal, lace leather, wrenches, punches, forks and anything else needed in that line.

"PURE as crystal," is a synonym for the highest excellence. The Diamond lens spectacles are literally "pure as crystal," they have an unequalled hardness and brilliancy. For sale by Ballenger, the jeweler.

THE Adams Express Company now has complete control of the express business along the river. It has messengers on the railroad and also on the White Collar Line packets. The United States Express was in business at this place just a year and one month.

Jim Hampton Drowned.

Jim Hampton, who has been employed at Childs' cigar factory, was drowned yesterday afternoon in the river near the mouth of Bull Creek. In company with one of his brothers and some other parties, he was in bathing, when he got beyond his depth. He was not able to swim, and sank to rise no more before his companions could reach him.

Deceased was a son of Roland Hampton, of Chester, and was about thirteen years old. His body had not been recovered at last accounts.

Used His "Razzer."

Bill Warner, colored, of Washington, was cut and seriously wounded Saturday evening by another negro named Routt Simpson, near Mr. Graham Lee's woods on the Fleming pike. They had attended a picnic in the woods, and in starting home overturned the buggy. Neither was hurt by the accident, but the couple soon got into a quarrel about the matter. Words were finally followed by blows, and Simpson drew a razor and slashed Warner across the abdomen, inflicting a very dangerous wound. Dr. Hunter, of Washington, sewed up the cut, and Warner was still alive at last accounts.

The Limestone Real Estate and Land Company.

The articles of incorporation of the Limestone Real Estate and Land Company of this city have been recorded in the County Clerk's office. The capital stock is not to exceed \$50,000, divided into shares of the value of \$100 each. The incorporators are Messrs. John H. Hall, James H. Hall, Samuel M. Hall and Wm. F. Hall. The general nature of the business of the company "shall be the buying and selling of real estate, and it may build, by contract, houses and other buildings, and manufacture and make ready any material necessary in the construction or building of houses, or other things for which the same material might be used in building." It is learned the company intends plating and improving about eight acres of land in the East End.

KIRK LEADS.

But the Irish Are Scratching the Tietet and the Contest Is Close.

The Other Nominees Are All Right. Let the Democrats Poll Every Vote.

The Republicans are making a desperate effort to defeat R. C. Kirk for Jailor. The fight against him is warm all along the line, but especially in this city.

The Irish Democrats, particularly the younger ones, are, as a rule, supporting Gilmore, the Republican nominee. In addition to this, the Republicans are using lots of "boodle."

Kirk in the face of all this is making a winning fight. At 9:30 he had 44 majority in Dover, at 10:30 he was ahead in Mayslick and Helena, and at 11 o'clock, he was ahead in this city. He was also ahead in Chester, Orangeburg, Minerva, Germantown and Fern Leaf, all Democratic precincts, had not been heard from. They can be relied on for a good majority. The Democrats, however, should get in every vote they can and make the majority as large as possible.

Keep up the fight till the polls close. The opposition to Mr. Blatterman does not amount to much. He had over 150 majority in this city at 11 o'clock.

Railway News.

An item has been going the rounds of our exchanges that the C. and O. paid the merchants of this city \$12,000 as damages for goods lost in the Bull Creek wreck. The amount paid was about \$1,200, not \$12,000.

The caisson bridge over the Kentucky river at Tate's Creek, on the R., N., I. and B. is finished. It is 2,000 feet in length and winds with several graceful curves like a letter S and is about one hundred feet high.

The increase in the value of railroads of the country during the past year has brought the value of their assets for the first time over \$20,000,000,000. On this property the net earnings, after paying expenses, were \$318,125,000; but the stockholders received only \$79,532,000 out of it.

Says the Enquirer: "For a long time nothing has been heard of the Kentucky Central deal. About eighteen months ago the stock of the road was lodged with Mr. C. P. Huntington and his receipts issued for the certificates. It was supposed at the time that the East Tennessee, Virginia and Georgia people would buy at 75. They have since acquired the Erlanger system, so that they are no longer a factor as a possible buyer. What's the matter with the L. and N. taking it in?"

Another Building and Saving Association.

Chief among the public institutions that we can not have too many of is the building and saving association. It stands next to the church and schools, and like them, we're pleased to note, is constantly increasing in number and usefulness.

The great worth of the two associations already in existence in this city is most plainly told by the numerous new, and many improved, houses that stand out in every part of the city to speak in evidence of their aid. In fact, there has been but few improvements to the realty of our city in the past few years that is not due to their existence, and so easy and safe are their terms that never yet has the red flag of the Sheriff floated from an improvement undertaken by one of their members. Besides, they have been, for many persons, a convenient means of acquiring a solid financial basis, which now is, or some day will be, the corner stone of a successful business. They are alike beneficial to the community and individual, and we announce with pleasure that the third one is to be organized in this city.

Lexington, Paris, Frankfort, Winchester, Georgetown and nearly all of the other cities of the State support from three to ten building associations, and owe most of their improvements to them; and, considering the fact that our present associations are never able to fully satisfy the applications for loans, it seems that there is certainly room for another one here.

The matter is in the hands of gentlemen whose enterprise insures its speedy organization. The directory will be com-

pleted in a day or two, and the books opened for stock as soon thereafter as is possible.

The new association will be similar in its plan and nature to our present organizations, but will contain such improvements as wisdom and experience suggest; and, its motives being the same, it is safe to predict that with the contemplated improvements it will achieve even greater results.

It is the intention of the organizers to so fund the association that persons in all parts of the county may maintain membership with as much convenience as those living in the city. We hope to be able to furnish our readers with the new features and full directory in a day or two. In the meantime, let everyone help the good cause along.

County Court Doings.

Edward Walton was granted license to retail malt liquors at his place of business on the south side of Fleming pike, this city.

The annual report of the Cabin Creek and Springdale Turnpike Company was filed and ordered recorded.

Thomas Gantley qualified as guardian of William Ryan, John Ryan and Mary Ryan, with William Gantley as surety.

Reports of settlements were filed by John T. Shanklin, administrator of Matthias Luter, W. W. Baldwin, administrator of Mary Jane Tabb and Alice A. Hendrick, guardian of Nellie V. Warren, and continued for exceptions.

An inventory and appraisement of the personal estate of William E. Tabb, deceased, was filed and ordered recorded.

The Treasurer of Mason County was ordered to pay Dan Perrine, committee of Charles Lyons, Beatrice Darlington, Cynthia Stevenson, Elizabeth Chambers, Edward L. Bullock, Chase Brooks, Augustus Green, Alfred Montjoy, William Hatt, Dicey Ann Sapp, Charles Hughes and Odie Hughes, paper bills, the sum of \$10 each, allowed under chapter 174 of the acts of the Legislature, 1890, and the same is one-half the annual allowance made to said bills.

Here and There.

Miss Anna Whitaker has returned from Lexington.

Miss Mollie Donova: has returned from a visit at Germantown.

Mrs. W. H. Cox is at home after spending several weeks at Mr. Sterling and Crab Orchard Springs.

Miss Jennie Frazee arrived home Saturday evening after spending two weeks at Paris and Lexington.

Miss Emma Means returned home Saturday after spending some time with Mrs. John H. Hall, of Covington.

James Smith, Jr., of Clay City, Ky., is visiting his parents, Mr. and Mrs. James Smith, of West Second Street.

Misses Lizzie and Nanlene Tolle, of East Second street, were the guests of the family of Mr. J. W. Coulter, of Orangeburg, Sunday.

Mrs. Mary Kercheval and daughter Miss Ethel, of Covington, passed through Maysville Saturday en route to Mayslick to visit relatives.

Messrs. J. Barbour Russell and C. C. Calhoun are among the Oddfellows who will attend the cantonment at Chicago this week. They left this morning.

Miss Bettie Coulter, of Orangeburg, and Miss Lillie Humphrey, daughter of Rev. C. M. Humphrey of Mt. Carmel, spent Friday and Saturday with the Misses Tolle, of the Fifth ward.

The low water is giving the big packets a heap of trouble.

MINER'S MAXIMS

A starved cow will give starved milk;

A "skinned" shoe will give "skinned" wear.

You can't put a cow on starvation diet and get good, rich cream out of her. You remember that the man who had discovered the way to keep a horse without feeding had a dead horse just about the time he had perfected his discovery.

You can't get out of a thing what isn't put into it.

Put good feed into a cow and you get good milk out of her—rich milk that will make cream.

Put good material into a shoe and you get good wear out of it. But a "skinned" shoe is as sure to give "skinned" wear as a starved cow is to give starved milk.

YOU don't want "skinned" shoes.

How can you avoid them?

Buy at the place where they sell only good shoes—the place where they've been
